# REPORT OF NEWMARKET WATER BOARD.

NEWMARKET, N. H., Feb. 10, 1910.

The following may be of interest to the tax payers of the town. It being the first report that has been made by your Board, we have thought advisable to print a copy of our charter for your information.

STATE OF NEW HAMPSHIRE.

In the year of our Lord one thousand eight hundred and ninety-three.

AN ACT TO INCORPORATE THE NEWMARKET WATER WORKS.

*Be it enacted by the Senate and House of Representatives in General Court convened:*

SECTION 1. That Charles V. Doe, Samuel H. Greene, Benjamin F. Haley, Ambrose J. Nichols, Charles H. Smith, Charles E. Tasker, Woodbridge W. Durell, Alanson C. Haines, George O. Hodgdon, Milton S. Laine, Bradford S. Kingman, William H. Paine, and Albert M. Priest, their associates and assigns, shall be and hereby are made a body politic and corporate by the name of the Newmarket Water Works, for the purpose of bringing water into the village of Newmarket, in the County of Rockingham, for domestic uses, the extinguishment of fires, and such other purposes as may be deemed necessary, and by that name may sue and be sued, prosecute and defend to final judgment and execution, and are hereby vested with all the powers and subject to all the liabilities incident to corporations of a similar nature.

SEC. 2. The capital stock of said corporation shall consist of such number of shares, not exceeding fifty dollars each, as may be from time to time determined by the directors of said corporation, not exceeding in the whole the sum of one hundred thousand dollars.

SEC. 3. The annual meeting of said corporation shall be holden at such time and place as may be prescribed by the by-laws or appointed by the directors, at which meeting not less

than three nor more than seven directors shall be chosen by ballot. The directors may call special meetings whenever they shall deem it necessary, giving such notice as the by-laws may prescribe.

SEC. 4. Said corporation is empowered to purchase and hold, in fee simple or otherwise, any real and personal estate necessary for the carrying into effect the purposes of this act, not exceeding in value forty thousand dollars at the time of the purchase; and said corporation is authorized to levy upon and break ground, dig ditches and make excavations in any street, place, square, passageway or highway in said town through which it may be deemed necessary for the pipes and water works of said corporation to pass, be or exist, for the purpose of placing said pipes, water works and such other material as may be deemed necessary for building said water works, and to relay and repair the same, subject to such regulations as to the safety of the citizens and security of the public travel as may be prescribed by the selectmen of the town of Newmarket.

SEC. 5. Said corporation is authorized to enter upon and appropriate any springs, streams or ponds not belonging to any aqueduct company, and to secure such streams, springs or ponds by fences or otherwise, and dig ditches, make excavations and reservoirs through, over, in or upon any land or inclosure in said town of Newmarket through which it may be necessary for said pipes and water to pass, or said excavations, reservoirs and water works to be or exist, for the purpose of obtaining, holding, preserving or conducting said water, and placing such pipes, other materials, or works, as may be necessary for building and operating such water works or repairing the same; provided that, if it shall be necessary to enter upon and appropriate any springs, streams or ponds, or any land, for the purpose aforesaid, or to raise or lower the level of the same, and if said corporation shall not be able to agree with the owners thereof for the damages that may be done by said corporation, or the owners shall be unknown, either party may apply to the supreme court at a trial term in the county of Rockingham, to have the same laid out and the damages determined; and said court shall refer the same to the county commissioners for said county, who shall appoint a time and place of hearing, and give notice thereof in the same manner as now provided by law for laying out highways. Said commissioners shall make report to said court, and said court may issue execution therein accord-

ingly; but if either party shall desire it, upon application to said court, before reference to said commissioners, they shall be entitled to a trial by jury in such manner and under such regulations as said court may prescribe.

SEC. 6. Said corporation may contract with individuals and corporations for supplying them with water, establish such tolls, and charge such rents for the use of water as shall be deemed reasonable, and said corporation is authorized to borrow money to defray the cost of such water works and to issue the notes, bonds or obligations of said corporation therefor, payable at such times and at such rate of interest not exceeding six per cent as they may determine, and may, if they deem it expedient, secure such notes, bonds or obligations by a mortgage of all their estate, real and personal, which mortgage shall be recorded in the office of the register of deeds for the county of Rockingham.

SEC. 7. The town of Newmarket or any village district that may be organized therein is hereby authorized to contract with said corporation for water for fire purposes or other public use and to subscribe for stock in said corporation, or become the owner of said stock notes, bonds, or obligations by purchase and to raise by taxation and appropriate money or issue notes, bonds, or obligations in payment therefor when thereto authorized by a major vote of those present and voting at any meeting legally called and holden for that purpose, and the treasurer of said town or any other duly appointed agent may vote upon said stock, casting one vote for each share of stock so held by them, at any meeting of the corporation; and said town of Newmarket is hereby authorized and invested with the right at any time after five years from the date of the organization of said corporation, to take and hold all the stock by purchase, if the parties agree or at the appraisal of three disinterested men, who may be appointed by the supreme court upon a proper application therefor.

SEC. 8. Any two of the corporators named in this act may call the first meeting of the corporation by giving a notice in writing to each of the corporators of the time and place of meeting at least seven days before the day of meeting, or by notice published in the ADVERTISER, a newspaper printed at said Newmarket, at least fourteen days before said meeting; and at said meeting, or any adjourned meeting thereof, or any subsequent meeting duly called, associates may be admitted and all proper officers chosen, the number and par value of shares

fixed, and such by-laws and regulations adopted as may be deemed necessary to carry into effect the business of the corporation.

SEC. 9. Said town of Newmarket in its corporate capacity is hereby authorized and empowered to construct said Water Works and is hereby invested with all the rights, privileges and liabilities prescribed in this act, provided the said town of Newmarket shall on or before the fifteenth day of April, 1893, at any meeting legally called and holden for that purpose, by a major vote of those present and voting, vote to construct said water works and vote to pay the fee required to obtain this charter, or act, and a reasonable sum for the expense of obtaining the same.

SEC. 10. Said town, having voted to construct said water works as provided in section nine of this act, is authorized and empowered to contract with any individual or corporation to pump water, and to make other contracts, and establish such regulations and tolls for the use of water, as may from time to time be deemed proper; and for the more convenient management of said water works, the said town shall before the construction of the same place them under the direction and control of a board of water commissioners, consisting of nine suitable persons, not more than five of whom shall belong to the same political party; and the selectmen of said town are hereby authorized and empowered to appoint such board of commissioners, three of whom shall be appointed for three years, three for two years, three for one year, and three each succeeding year, and said commissioners shall be paid a reasonable sum for their services. It shall be the duty of said commissioners to construct said water works according to the terms of this act, fix and collect water rates, appoint a superintendent and such other officers as may be necessary and fix the salary of the same, and perform such other duties as said town may from time to time prescribe.

SEC. 11. Said town is also authorized, at any annual or special meeting by a major vote of those present and voting, to make regulations for the management of said water works; to borrow or hire such sum of money, on the credit of the town, as may from time to time be deemed advisable for the purpose of defraying the expense of purchasing real estate, rights in real estate, water rights, streams, springs, ponds and all other rights as aforesaid, and for constructing, maintaining and operating said water works, and to issue notes or bonds of the town

therefor, payable at such times and at such rate of interest as may be thought proper.

SEC. 12. This act may be altered, amended or repealed whenever the public good requires, and shall take effect upon its passage.

ROBERT N. CHAMBERLAIN,
*Speaker of the House of Representatives.*
JOHN McLANE,
*President of the Senate.*

Approved March 31, 1893.

JOHN B. SMITH,
*Governor.*

Believing that you will be interested in this and that these statements, which are partially approximate, may be of future value, we submit the following from notes that were taken at the time of the hearing between town and former owners, as a statement of actual cost and revenue coming from these works prior to that time.

The town bought the system from the Newmarket Water Works at a price of $83,000.00, taking possession Dec. 6th, 1901. Their actual cost has been stated as follows:

| | |
|---|---|
| Charter, | $ 250 00 |
| Land rights, | 1,300 00 |
| Piping, | 27,499 72 |
| Valves, hydrants and gates, | 2,012 69 |
| Service piping, | 1,968 37 |
| Standpipe, | 3,200 00 |
| Pump, boiler, engine wheel and penstock, | 6,442 56 |
| Filter pipe, | 1,440 00 |
| Building, well and connections, | 4,259 49 |
| Supervision, | 1,323 50 |
| Legal and miscellaneous expense, | 1,415 50 |
| Interest, | 78 95 |
| Engineering and financing, | 1,900 00 |
| Value placed on franchise, | 10,000 00 |
| | $63,090 78 |

The following is taken from notes regarding revenue:

We would call attention to the fact that the total revenue for water is received from three separate heads, viz.:

Services.
Town contract.
Railroad contract.

Up to 1906 we had a time contract with the Boston & Maine Railroad which yielded a yearly revenue of $1,839.00. Since that contract expired and owing to changed condition at Rockingham Junction, we have received yearly, as follows:

| | |
|---|---|
| 1906 receipts, | $1,214 10 |
| 1907 receipts, | 1,825 14 |
| 1908 receipts, | 1,318 28 |
| 1909 receipts, | 1,322 15 |

We have no accurate memoranda from which to state the exact amount of piping in our system, but are giving it approximately as scaled from plan.

| | |
|---|---|
| 400 feet | 14-inch cast-iron pipe. |
| 640 feet | 12-inch cast-iron pipe. |
| 7,075 feet | 10-inch cast-iron pipe. |
| 4,000 feet | 8-inch cast-iron pipe. |
| 22,461 feet | 6-inch cast-iron pipe. |
| 3,000 feet | 4-inch cast-iron pipe. |
| 37,576 feet. | |

Giving approximately seven miles of piping in our system, of which one-half mile was built by the town in 1905 at a cost of about $1,500.00, this being the extension to Durell's Corner, and having three hydrants thereon.

The system has the following connections:

57 hydrants.
4 drinking fountains.
3 standpipes for street watering, (free).
541 tenements, stores, halls, etc.
5 schoolhouses, (free).
1 church.
Town hall, (free).
Library, (free).

Regarding present needs: The pump has been in constant use for fifteen years and is to-day in good condition, aside from wear in parts that can be replaced. We need an auxiliary pump, that this repair can be made, and for use in case of our present pump being disabled.

We also need a new boiler for same reason, and your board has been advised and had plans submitted regarding installing these and can report that it can be done in a satisfactory manner at an estimated expense not to exceed $4,000.00.

We are happy to state that our examination of Superintendent Harvey's books shows the remarkable fact that his collections since the town has owned the system show a loss from bad bills of less than $25.00.

# ANNUAL REPORT

OF THE

# Chief and Clerk of Fire Department.

---

NEWMARKET, N. H., Feb. 15, 1910.

TO THE TOWN OF NEWMARKET:

In compliance with the law, requiring the Chief Engineer of the Fire Department to make an annual report to the town, the following report is respectfully submitted.

## FORCE OF THE DEPARTMENT.

The regular force of the department consists of a chief and three assistant chief engineers, two hose companies of 16 men each, one hook and ladder company of 12 men, and a driver for hose wagon No. 3. Each company is allowed to have five substitute members, who, when acting as such, are paid for their services by their principals.

## FIRE APPARATUS.

One hose wagon; one double runner hose pung; two two-wheel hose carts; one hook and ladder truck; 2100 feet 2½ inch rubber-lined, knit hose; 1000 feet 2-inch rubber-lined hose; nine flexible play pipes; two two-to-one Siamese connections; one one-to-two Siamese connection; four Callahan shut-off nozzles; four solid play pipes; three chemical extinguishers; two single hydrant gates; 32 spanners; seven hydrant wrenches; eight lanterns; two torches; two crowbars; 12 shovels; five hoes; four fire axes; three coats; 18 fire hats.

The Gleason & Bailey steel frame truck carries one 45-foot East Somerville extension ladder; one 26-foot, one 25-foot, one 24-foot and one 18-foot single ladders; one pull-down hook and chain; four hand hooks; two crotch poles; two fire axes; two crowbars; two sledges; 200 feet of rope; four lanterns; one signal lamp; two torches; one 13-inch gong. There are also held in reserve one 30-foot, one 25-foot and two roof ladders.

## FIRE ALARM.

One 10-inch steam gong; one 2000 lb. bell and striker, in steel tower; two 18-inch gongs; two 8-inch gongs; twelve firm alarm boxes; seven miles of wire, and the proper amount of battery to sustain the same.

## APPARATUS.

Our apparatus stands practically as last year, and with the exception of the hose, is in equally as good condition.

## REPAIRS.

The repairs on the apparatus during the year were confined to the general wear and tear, no extensive repairs being made on the apparatus, mostly on the alarm.

## WATER SYSTEM.

This system includes 57 two-way hydrants. The water supply has been found ample for our needs and given us good pressure whenever wanted.

## GENERAL REMARKS.

It will be seen by the Clerk's report that the total amount of damage by fire the past year was $963.46; insurance paid on same, $963.46.

The promptness in responding to alarms and the cheerful manner in which our firemen attend to their duties at fires, leave little to be desired by those in command. Every man seems to realize that he is reinforced by the full power of the local water works system, which has never failed us within the limit of its area.

HERBERT A. BRACKETT,
*Chief Engineer*

## FIRE LOSSES AND INSURANCE.

Total number of fire alarms the past year, eight. The total amount of damage, $963.46. Amount of insurance paid, $963.46.

# REPORT OF SCHOOL BOARD.

The board calls attention to the change in the close of the fiscal year of the district.

Chapter 23 of the Laws of 1909 provides that "The word 'town' wherever used in the statutes in connection with the government, administration, support or improvement of the public schools shall be held to mean district."

In answer to our question: "Must the fiscal year of the school district close Feb. 15?" the attorney general said: "Following the analogy of the law which has heretofore governed in towns in respect to school matters we are inclined to think that under the law of 1909, the fiscal year for a school district ends on Feb. 15."

In accordance with this opinion the School Board and the District Treasurer closed their accounts on the fifteenth of February, making the fiscal year of the district the same as that of the town.

In accordance with the law approved March 10, 1909, requiring the School Board to submit estimates relative to statutory requirements, to be raised by the Selectmen in their annual assessments of taxes, the Board submits the following:

| | |
|---|---|
| For text books and pupils' supplies, | $500.00. |
| For flags and appurtenances, | 50.00 |

The annexed report of the Superintendent of Schools gives the statistical information required by law.

# SCHOOL TREASURER'S REPORT.

Under the law of 1909 the fiscal year of the school district now closes February 15, instead of at the end of the winter term of school as formerly. As the Treasurer's report printed in last year's town report only gave the expenditures up to March 1, 1909, the complete report for the fiscal year ending March 27, 1909, is given in this year's town report, as well as the financial report from March 27, 1909 to Feb. 15, 1910. The most of the balance now in the hands of the Treasurer will be needed to pay the teachers, janitor and other bills due at the end of the present school term. These expenditures will show in next year's report, which will include a full fiscal school year—from Feb. 15, 1910, to Feb. 15, 1911.
